A Word from Bob Wright

Many of you who have read my book, “Killing Cancer – Not People,” know that I included the Redox signaling product called ASEA in both the Third and Fourth Editions. In essence, we have recommended this product for at least six or seven years now.

“ASEA is said to utilize a patented method for creating and stabilizing molecules native to the human body which provide a pathway to deliver critical ‘reactive molecules’ – molecules that are deemed necessary for maximum cellular health.”
In layman’s terms – “Through its ‘Redox Signaling’ – as the process is defined and known – ASEA boosts the efficiency and effectivity of the body’s super antioxidants, superoxide dismutase (SOD) and glutathione, by as much as 500%. A recent study also demonstrated that ASEA will increase the uptake of antioxidants while minimizing inflammation. All of this is good news for cancer patients and the human immune system.”

Well, that’s what I said seven years ago – and I’m reinforcing it today in spades. You see, I knew of its value immediately from its immune-boosting and anti-inflammatory capabilities. Keep in mind that cancer is caused (in part) and spreads through inflammation. And so does most other sickness and disease. This cannot be refuted and is now settled science. At least it should be.

What I lacked over the past several years was the volumes of testimonies I was looking for to show that it (ASEA) was of great assistance to those struggling with cancer and chronic illness. At the AACI/IWARC, we demand proof (of all supplements, treatments, and protocols) that these things work in the human body not just in the petri dish, test tube, rats and mice – or that it sounds convincing on the written page. No, we want truth and proof of efficacy for both you and me before we will put our name behind it.

I recently found those volumes of testimonies through our SE Asian Ambassadors – John Lim, Jun Leung, and Dr. Ray Dixon. It’s not that there wasn’t any, they were just difficult for me to find. What typically happens in the natural health field is that companies must comply with FDA rules and regulations (many are hogwash and protect neither you nor me – which the FDA is supposed to do) and not make any claims for their products that cannot be substantiated. The only substantiation that the FDA accepts are clinical trials that cost a quarter billion dollars and usually prove nothing. As a result, testimonials from any “natural” product or supplement must be tempered with the typical statement that “this product has not been evaluated or approved by the FDA.”

In reality, no one can truly say that their product heals any sickness or disease. Having said that, hospitals and doctors routinely state that they “cure” cancer with absolutely no proof or truth. Simply said – they don’t. But hey, it keeps bringing the customers in, so why not. Why not, indeed. Because it’s a lie –
plain and simple. No doctor or hospital has ever healed any patient of anything – EVER. The miracle that is the human body will heal itself – if given the right ingredients. All of us in “alternative medicine” know this. It seems like the allopathic community has not gotten the memo.

It is the true healing of the epigenetic systems of the body (physiological pathways and systems) that bring about the strengthening and healing of our immune responses (it’s the immune system stupid!) that bring forth health – and healing. That’s the way we say it. And we do so because it is the truth – once again. It is undeniable, irrefutable, and indescribably delicious when you really get it. I have said over and over again throughout the years that no one could give me any amount of money that could equate to the feeling I get when someone says “you saved my life.” This is another area where we need to educate conventional medicine. Meaning that it is not about the money – it’s about the person, the true healing, the quality of life. And, the cost in dollars is always far less with our model than the Western Medicine model – and people actually heal.

So, yes, I found the testimonials that aren’t advertised or broadcasted to the world. They are written in such a way that one does not run afoul of the law – but still gets to the point of what the product has done for them. Again, the way it should be.

We have included three of the many, many I have received in the past few weeks in this newsletter. To say I am stunned would be somewhat of an understatement. But seriously, I am not surprised. The body requires the right food, water, and nutritional components to be healthy – and heal when it is not. When those are present in their pure form – it appears that “the magic” then happens. What we must realize is that it is not magic at all. No, it is the inevitable response to micro and macro nutrient efficiency and effectivity.

I am so excited to see what the “partnership” (dual usage) between ASEA and the X39 stem cell patches will produce. I firmly believe that we have not seen such a dynamic duo since Batman and Robin. These will make a huge difference in the years to come in longevity – and all health and healing.
For those of you interested in finding out more – or trying this product – contact Dr. Ray Dixon at drraydixon@hotmail.com. Dr. Ray is a great doctor who actually understands the workings of the human body and of these “Redox Signaling Molecules.” The science and testimonials are all available to you.

Please keep in mind that if you are trying any new product, especially the ASEA or X39, one must give them time to work. I always dedicate at least 90 days before assessing the results. And I do that despite the fact that some (not all) will see changes the first day or the first week. Those of us who presuppose that we are pretty healthy right now, may not see results (or notice them) for a bit. Be patient. For crying out loud, many of us have spent 40, 50, or 60 years getting ourselves into the health fix we are in. It makes perfect sense that it will take a little time to get us out.

As always, I wish you health and healing – and Blessings.

Blessings, Bob

Are We Relevant?

It has been over 12 years now since we began telling people the truth about cancer. We have expanded to expounding upon the veracity surrounding all chronic illnesses and disease. We have grown around the world and now have Ambassadors in Australia, New Zealand, Hong Kong, Mainland China, The Philippines, Thailand, Malaysia, Singapore, Indonesia, India, Italy, Canada and, of course, the United States.

We have had the privilege of consulting and counselling with literally thousands upon thousands of people throughout the world struggling with cancer and all known human maladies. And, many, many have been helped. We know because they have told us so.

We have gotten our book, “Killing Cancer – Not People,” into hundreds of thousands of hands and people love it. We know because, once again, they have told us so.

We have visited all of these countries where our long list of Ambassadors represent us – with the exception of Italy. Hopefully, we will get to Europe this year. We have stood before tens of thousands of people – letting them know the real truth about cancer and disease. We have shown them what we believe is the way to live, the way to eat, to drink, to supplement – and exactly what we would do if we were in their situation.

We have published a newsletter every month during this process highlighting all of the things that we believe to be the tenants of health, prevention, and healing.

It’s been a great ride – truly blessed by God.

But now, I must ask you – are we relevant? You would think the answer to be obvious. However, it remains somewhat elusive to us.
You see, we don’t hear from you. Through many editions of this missive we have asked for your input. Few respond, despite the fact that this newsletter goes out to thousands upon thousands around the first of every month – free of charge.

We are a 501(c)(3), not-for-profit, IRS designated charity. We don’t charge for our services. But we need to survive. The aforementioned book has allowed us to do that for many years as the AACI/IWARC gets all the net proceeds from this work. It’s very rewarding to hear so many people call it their “cancer Bible.”

But like all non-profits, be it the American Cancer Society, Susan G. Komen, or Breast Cancer Action, we need support from the public as we receive none from the corporate world. Sadly, once again, we don’t hear from you on this (with a few exceptions).

So, I ask you again – each and every one of you who opens this document each month, are we relevant? Do we make a difference for you and the community at large? Or, perhaps, are we just spinning our wheels behind the big guys – trying to catch up?

Does this newsletter help you? Do you even like it? What is missing? What should be added? Is it too long? Too short? Boring? What does it need? Please give us your input, your ideas, your help, your knowledge. Judge us – good or bad. Show us yours, we’ve shown you ours. Thank you in advance.

Email Bob directly at info@americanaci.org. We will respond. Blessings.
Do you really understand what is going on in the U.S. and around the world with GMO’s and genetic engineering? This very short video below will tell you the real story.

Perhaps one of the most compelling, important, urgent videos you have ever seen. Do pay this forward to everyone that has a pulse. Our health, plant and animal species, mother earth are at risk!

Testimonials: Thank You Mr. Wright!

Root Canal & Knee Pain Correlation Testimonial | Consultation with Bob Wright

Bob Wright’s visit to Malaysia in 2018 provided many insights on fighting cancer and wellbeing in general. Having personally spent some time digging his brain truly gave me some clarity on how our body functions to heal itself. Among the many subjects talked about was the negative sides of root canal treatments.

I remembered back in 2001 I had a root canal and crown done on one of my tooth. After hearing the many health issues associated with root canals, I decided to take it out. But it was not until November last month I finally got it extracted. When I first went to my dentist to get the root canal removed, I was advised against it because it. I voiced my concerns to my dentist and among the arguments was that root canals if properly done poses no health risks at all. Besides, I’ve had the root canal for the last 16 years and there was no infection and inflammation around the tooth area. I relented and didn’t do anything about it because I was thinking the dentist would know better.

Moving forward to this year, I met a friend who talked about his father who had health issues for more than 30 years and it was related to the “picture perfect”
root canal he had done when he was much younger. I was then determined to get my root canal tooth extracted even though I was not sure what to expect after. When I was at the dentist’s clinic, I was dissuaded again against extracting the root canal tooth. This time I was told the tooth looks perfectly fine should pose any health risks. I even got a x-ray done just so the dentist could prove that the root canal looked perfect internally. Besides, it would be money thrown down the drain because root canal treatment and crown costs a lot of money. However, I said I’m happy with extracting the tooth anyway even though it has cost me a lot to get it done before.

After applying local anaesthesia to the tooth area, the dentist proceeded to extract my tooth. In doing so, the crown broke from the tooth and then immediately there was a strong foul stench. I still felt sick till this day thinking that it came from my mouth. After the extraction was done, I was caught in horror when I saw the badly decayed tooth. The stench makes it more horrible and I knew I made the right call in extracting it. I had no inflammation or infection whatsoever. Even the x-ray showed a perfectly fine root canal.

Today a month after getting the root canal extracted, I noticed that I no longer had the knee and ankle pain which I always felt when doing sports. I do not think that it’s a coincidence after getting the root canal extracted.

I have attached photos of the crown and tooth for reference purposes. One is with the crown on top of the tooth and the other with the crown removed. It has been an eye opener for me and I hope it will be beneficial to others.

~ Joneville Tinun
AACI Consultant, Malaysia
I have been blown away by this product since my daughter began ASEA about 6 months ago. My daughter was diagnosed with a rare genetic mitochondrial disease at the age of 20 months. She is now 4 years old. It is a progressive neurodegenerative disease that has no treatment or cure. Children with this disease lose the ability to walk, talk, eat, and eventually breathe. She had a regression right before her 3rd birthday and lost the ability to walk. Her ataxia and tremors worsened significantly. Her speech which was previously perfect had worsened and was shaky, weak and slower. She fatigued very easily. Her endurance during physical therapy was poor.

She had a regression right before her 3rd birthday and lost the ability to walk. Her ataxia and tremors worsened significantly. Her speech which was previously perfect had worsened and was shaky, weak and slower. She fatigued very easily. Her endurance during physical therapy was poor.
She was slowly going downhill until we were introduced to ASEA and our lives changed. I was skeptical but when I found out this was something that could potentially help her and not hurt her. I started her on a low dose of 2 oz twice per day. After about 2 weeks I notice her energy and endurance improved. After about 1 month, the medical board of ASEA advised me to increase to 2 oz 4X/ day and apply the gel four times per day.

After increasing her dose, we noticed a definite improvement. Before she would have trouble sitting up without wobbling. Now she sits pretty steady. Her endurance with exercise has improved, her speech is stronger and clearer and she’s talking much more.

~ Courtney Boggs

“Yes, the AACI/IWARC has supported the ASEA product for about six or seven years now and it has been in my book, "Killing Cancer - Not People," both the third and fourth editions. To acquire this amazing product or to learn more about it, contact our Dr. Ray Dixon at drraydixon@hotmail.com. Dr. Ray will take care of you!”

~ Bob

Cheng Poh Lim is a professional karate instructor and has been teaching since 1977. He was the national coach for the Norwegian Traditional Karate Federation for 25 years, and now teaches in Sweden, Iceland and other countries. He's been actively training for 47 years. He is 63 years old and started using X39 in April. He says he's had a "miraculous recovery" from his chronic pain and inflammation.

"Here I am in a frontal split - something I couldn't do for at least three months due to inflammation in my groin area. I am not aware of exactly when the pain went away, but now, my groin pain is gone, as well as my shoulder pain and elbow pain. They all left me. And I can run again! Yesterday my knee pain bade me goodbye as well. I will not miss them for sure."

~ Cheng Poh Lim

Trick Knee Testimonial | LifeWaveX39™ Stem Cell Patch

Joe Bedore, a retiree and LifeWave distributor from Tampa, Florida, was dealing with a "trick knee" for most of his life. The stairs in his house proved a daily challenge, as he never knew when his knee might "go out" on him.

See his testimonial on video here.
https://www.youtube.com/watch?v=B6YR_sXejTA

"You don't need to live with worrisome joint pain. You may repair it without the risk of stem-cell injections."

~ Joe Bedore
Meet Our Ambassador…

Meet Dr. Ray Dixon (on the right) the AACI/IWARC new ambassador in Thailand.

A financial service for using life insurance today™

For millions of people who are living with a serious illness such as cancer, heart disease, Alzheimer’s or AIDS, the high cost of medical care can quickly deplete essential resources. The same is true for many people over the age of 75 who have complicating health factors. Just putting money aside for basic expenses such as groceries and mortgage payments can be a challenge. LIBI gives people a place to turn for additional resources. Through a financial service called a viatical settlement, we enable people to sell their current life insurance policies for a percentage of the total face value. The money people receive may be used for any purpose and, in most cases, is free of federal income tax obligations.

LIBI can help open the door to new possibilities—such as fewer financial worries, new options for medical care and additional resources to share with family and friends.

All of us have our own sense of what’s important, whether it’s reaching a long-held goal, spending time with family and friends or enjoying the simple pleasures of each day.

What sets Life Insurance Buyers, Inc. apart

People place their trust and confidence in LIBI for many reasons—the financial strength and stability of our company, the experience and commitment of our people, the range and quality of our services, and the leadership and integrity of our organization. These are the qualities that set LIBI apart as the industry’s top broker. LIBI has helped convert millions in policies into accessible funds for hundreds of individuals in need. In every relationship, we take the time to learn what’s most important to our clients and to provide them with the resources they need, in a timely and confidential manner.
People who put clients’ needs first

We truly understand that people place their trust in us every day—to treat them fairly, to deliver what we promise and to be there when they need us. Our mission is to live up to those expectations every time, without exception. That commitment is demonstrated through the professionalism and compassion of our owners. For individuals who are considering a viatical settlement, their personal representative provides a voice of understanding and serves as a trusted resource for help and information.

Leadership that makes a difference

At LIBI, we operate with the highest ethical standards, carefully protecting the interests of our clients. To us, that means maintaining strict client confidentiality, offering fair payment for policies and encouraging effective regulation of our industry. We work closely with the National Association of Insurance Commissioners as well as federal and state governments to promote meaningful regulation of viatical settlements. LIBI works with numerous not-for-profit organizations across the country to help educate and inform the community about this important financial resource.

What’s important?

Choosing a company you trust. At LIBI, our strength, people, service and leadership make a difference to our clients and set us apart as the nation’s leading broker of viatical settlements. We encourage you to find out more about how we can help you ro someone you know.

The Highly Anticipated, New & Improved 4th Edition is NOW HERE!

WHAT WOULD THE AUTHOR, BOB WRIGHT, DO IF HE HAD CANCER?

The “Wright Stuff”, of course!

IN THIS BOOK:

- Read meticulously documented Truth about the AACI Cancer Paradigm and what it means for you and your family.

- Be amazed by doctors and medical professionals who know this Truth – some want you to know it, and some don't. Learn why.

- Learn what you absolutely must do and stop doing if you have cancer right now, and what you must do for cancer prevention.

- Understand detoxification and the cancer diet in plain English.

- Read dozens of testimonials from those who have suffered with many types of cancer and have struggled with conventional medicine. Discover what they did that put their disease into remission.

- Learn the five-step protocol that is essentially all that cancer patients really need.
