The Wright Stuff

A Word from Bob Wright

Remission. That one word flows from the Doctor’s lips to your ears and the entire world seems to change. Of course, to you that means the cancer is essentially gone, it has been beaten, and the Doctor gives that inference with unwavering poise and certainty. And you accept it as you are finally and unequivocally “healed.” But, are you really?

Good question. Not wanting to quash hope or rain on anyone’s parade, we must investigate this further to truly understand what remission, even “total” remission means. Once again, it is time to know the truth and put to bed the fallacies that exude from conventional cancer treatment centers.

First, I must say that this is not an essay about Western Medicine or oncology and it is not my intent to bash cancer doctors or care givers. After all, if someone asked you to redo the plumbing in their house and you had very little expertise to complete the task – and you subsequently mess it up – who is to blame? You simply did not have the knowledge, training, and experience to do it in the first place. Well, cancer doctors are not trained in what really works for cancer and have very little, or no, knowledge of how to heal it. We have already said many, many times that doctors are virtually “handcuffed” when it comes to treating this plague of the 20th and 21st centuries that affects a new family every minute of every day as their loved one passes on from this dis-ease. After that fashion, we cannot blame them.

Sadly, they look into their tool box for cancer and find only three tools to choose from; those being surgery, chemotherapy (drugs), and radiation therapy. That’s virtually it. We can now add what they term immunotherapy – but it is so new that it is used more experimentally on patients as, essentially, guinea pigs, and it simply does not work very often or very well.

And doctors are fascinated with tumors. They have a tendency to get excited when a tumor begins to shrink. While chemotherapy and radiation will kill some cancer cells and cause many tumors to shrink – at least temporarily – they have no ability to kill all of the cancer, particularly the cancer stem cells that actually become stronger from this chemical/radiological onslaught and run and hide somewhere else. If a doctor actually gave you the dosage that would be essential to kill all of the cancer, it would kill you. Period. That’s why people go through round after round; two weeks on, two weeks off – allowing the immune system (that has now been severely damaged) to recuperate for a period of time before the next poison is given. It is literally a no-win situation – while not a zero sum game. What is lost is far more than the gain.

Remission, though, is what everyone wants and likes to hear. To doctors it means “we can’t see any cancer through our diagnostic testing any more. You are clear, clean, no more cancer.” Sadly, almost always not true. After all, how many times have we heard – after the declaration of remission – that the “cancer is back?” Yeah, well, truth be known, it never really left. The stem cells escaped and set up camp somewhere else, ever ready to begin that eternal growing-out-of-control business until the host can no longer survive it. Remember, it takes about
4 billion cancer cells – in a single colony – to be recognized by a mammogram. CT Scans and MRI’s may be more sensitive, but there is no way they can determine all the time where any – if any – cancer has migrated.

That is why we are careful with the enigma called “remission.” Of course, we always want to give people hope – and we do. But we must always tell the truth, call a spade a spade, have nothing but veracity flowing from our lips. Isn’t that what people want? Or, just maybe, they really just want the “R” word. They want that hope that rides on the back of remission. Who can blame them for a second. While we want that too, we must be truthful while still offering the hope of life without cancer.

The road to real remission does not include the treatments and therapies that actually cause new cancers and spread cancer (chemo & radiation). We all know people who have survived these and have lived well beyond the five-year period after which medicine declares them cured. It happens. Most of those, however, have changed their lives in other ways and are eating the right foods, drinking the right liquids, detoxing their bodies, taking supplements, and exercising – the exact things that – when done correctly – will naturally bring a diseased body back to health.

That’s where I would go to find my remission. Using the plants, nutrients, and right liquids (water) that God gave us to keep us well and heal us when we are not. You know, those things that are steeped in real science. These things work virtually every time – if you know how to utilize them. We see it every day – so we know the truth, regardless of what Wikipedia, the American Cancer Society, and the natural health “naysayers” will tell you.

If you have cancer right now, or some other chronic illness, and want to discover the truth about remission and get on the road to it, drop us a line at info@americanaci.org (comes directly to me) and let’s have that discussion.

Blessings, Bob

Bob Wright, Director and Founder
American Anti-Cancer Institute, International Wellness & Research Center

AACI Newsletter
Where in the World is Bob?

Bob will be in Oregon for an event scheduled with Rochelle Dietz’s team in McMinnville at Linfield College on July 27th (site is tentative – watch for final information on Facebook and on the website).

Events are being planned in Australia and New Zealand for the first two weeks of September through AACI/IWARC Ambassadors Nanette Belista and Anna Yuan and their team (Australia), and Kelly Kingi, AACI/IWARC Ambassador for New Zealand with Nanette Belista. Several events are planned for both countries – New Zealand already has two meetings scheduled for September 14th and 15th in Mangere…visit http://truehealthevent.com for details.

Bob will be in Kelowna, British Columbia, Canada on September 28th with Erica Mueller of Okanagan Ayurveda.

Stay tuned to the newsletters, website and our Facebook page for exact times and venues in these cities. Also be sure to Like our Facebook page at www.facebook.com/killcancernotpeople to be notified of updates and get all the latest news from AACI!
25 Reasons to Avoid the Gardasil Vaccine

by Children’s Health Defense,
as printed on GreenMedInfo.com, Sayer Ji, Founder

I rant and I rave, I write about it in several newsletters and in my book, and talk about it in my many seminars around the world. And yet, mothers and fathers continue to have their young children vaccinated with the Gardasil Vaccine. Why? Have not all of the deaths attributed to this vaccine and all the maiming and chronic illness directly associated with it deterred them at all? I believe they just don’t know the facts and are indoctrinated by conventional pediatricians that these 3-step injections are safe. Folks, they are not. Please read the literature about this – then show me the long term studies that prove that this drug is safe. You won’t be able to because there are none. For our children’s sake – please find out the truth about Gardasil and other vaccines now routinely given to them for a disease (HPV) that most of them will never, ever get anyway.

HPV vaccines are increasingly being mandated for school entry across the country, but did you know they are the most dangerous and least safety tested of any released today? Read the complete article at www.greenmedinfo.com/blog/25-reasons-avoid-gardasil-vaccine!

Why Re-Mineralize Your Body?

Below are several notes that were sent to one of the best doctors in the world, Dr. Carolyn Dean, testifying to what is happening to those who have realized the importance of supplementing with liquid magnesium (pico magnesium chloride) and liquid pico minerals. It is one of the best things that any of us can do for ourselves – without a doubt. Find these products at www.rnareset.com.

“We have been using the ReMag and ReMyte now for about 9 months and can see improvement through blood testing, lowering thyroid prescription dosage, eliminating muscle cramping. Our extended family is now also using the combination and feeling significant benefit.”

“I am stunned that there are not hundreds of positive reviews about this product. I have taken ReMag and ReMyte for only 3 days and I have already had 95% less leg cramps and no more heart vibrations. They were not palpitations, but vibrations. I have had them for years, more than 5 years and no one could figure out what they were. I believe they had to do with my hormones. Mind you, I had been taking magnesium oil and many, many supplements. I stopped them all and just took these two and WOW – awesome results. If you are looking for results, invest in your health and get ReMag and ReMyte. You will be thrilled you did!”

“I can’t thank Carolyn Dean and her team enough. You saved my life or, rather, have given it back to me! I was diagnosed with atrial fibrillation so I went to two cardiologists and they both said the same thing–I was going to be on warfarin and beta blockers for the rest of my life, or I have to have a heart ablation and there was no hope at all. When I asked why it was happening they said there wasn’t a cause, it just happens as you get older! I was getting an AFib attack every 3 to 4 days lasting 3 to 6 hours and the last one I had lasted 14 hours. They started to happen even when I was drinking cold water. I thought I was going insane. Lucky for me I came across The Magnesium Miracle. I read it and started taking ReMag, ReMyte, ReAline and adding Himalayan pink salt to my water and it’s all gone–I’ve been Afib free for over a year!! I followed Dr. Dean’s advice down to a tee and even lost 20 kilos of bodyweight. God bless you!”

Read Dr. Dean’s Suggestions, where you’ll find instructions on how to use ReMag and ReMyte together to ReMineralize your body.
Plant Trainers – Teaching Kids About Food

Friends, the future truly lies in the hands of our children. We need to prepare them for that. Sadly, so many of them eat all the wrong foods (if we can call them that). It seems like they only know mac and cheese, French fries, donuts, burgers, sodas and the like. Why are carrots and Broccoli so foreign to them? What can we do to get them interested in eating properly, drinking the right fluids, caring about ingredients and participating in food preparation? Good question.

I think part of the answer is addressed by my new friends, Shoshana and Adam Chaim, and their company called Plant Trainers (www.planttrainers.com). Shoshana and Adam are true wellness experts, fitness trainers and, of course, “plant trainers.” Their recent book, “Yummy Foods Activity Book – For Kids”, is a great educational tool that teaches kids and their families about the foods they eat, the ingredients within them, and what we need to eat for good health. It seems that most adults I know could get a lot out of this book as well! ORDER NOW at Amazon for about $12. What a great investment for our children.
Kangen Testimony - Gout

from Mr Benmen, age 38, from Guangzhou, China

“My job at a bank required me to entertain my customers which included much eating and drinking alcohol resulting in gouty arthritis at my finger joints for 11 years.

I had consulted several doctors in China, Taiwan and Japan but their medicines were of no help. Each time I stopped taking medicines the severe gout pain came back at the joints on my left hand.

Photo 1 taken in January 2018, shows painful swollen joints with crystals at palm and finger joints. Photo 2 taken in February 2018 when I underwent a surgery to remove the crystals at the painful swollen finger joints.

When I was being discharged, the doctor recommended that I should buy an alkaline water machine to neutralize my body's acidity. In March 2018, I bought the Kangen Machine from Enagic and drank this water but still experienced the gout attacks. Therefore I was not yet confident in this water.
I visited the Enagic offices in Japan and Singapore and learned more about Kangen Water and increased my drinking from 2 to 4 liters a day. My introducer shared a testimony from Shenzhen city on the benefits of drinking 11.5 ph water and soaking my hand in both 2.5 ph and 11.5 ph daily. In May 2018, I started to follow his advice and after two months to my surprise the gout pains improved significantly. My uric acid reading had dropped from 600 to 400, my high blood pressure and cholesterol became normal. I hereby confirm that as of today, 27th May 2019. I no longer experience any gout symptoms or pain and strongly endorse the goodness of Kangen Water.

Testimony for “Killing Cancer, Not People”

“I am writing as a 4 year survivor, treated my cancer without chemo and radiation. I pretty much used the 3rd edition of Killing Cancer Not People as my bible. One of my best friends gave me a copy after meeting the author. She is a ND in WA. I have now ordered the 4th edition on Killing Cancer not People. I am excited to see what's new!”

- Erin Sweeney

Conners Clinic

As many of you know, we do not recommend very many “cancer clinics” – either on our website or in my book. There is a good reason for that. It is seldom that we find a wellness center that preaches and practices the same things that we do here at the American Anti-Cancer Institute and International Wellness & Research Center. There always seem to be glaring differences in philosophy or treatment/therapy/protocol-supplement regimens that seem to be at odds with what we believe are the real tenants of healing.

We recommend what we do because we have studied this dis-ease we call cancer for many, many years and can actually tell people what causes it and, therefore, what the mechanisms are to bring the epigenetic systems and the human immune system back to healing. We “walk it backward” you might say.

Today we would like to turn our mid-western friends (or anyone else) on to the “Conners Clinic” in Minnesota. Friends, this is a true wellness center that offers both in-patient and outpatient services for those with cancer – or other chronic illness. Look them up at the website below and discover what treatments and therapies they offer and how it might just fit your requirements for wellness and healing. They also offer Thermography – the number one diagnostic tool we recommend for women who have breast cancer or are concerned about getting it. Make that ALL women – and men too.

Reach out to the Conners Clinic at www.connersclinic.com
Beware of Biologics!

The new buzzword in the drug world of Big Pharma is “biologics.” Of course, this refers to a new species of drugs that are specifically designed to elicit immune responses and reduce inflammation. They are produced from living organisms or contain specific components of living organisms, such as proteins, tissues, genes, allergens, cells, blood components, blood, and vaccines. Before we go any further – I hope that many of you reading this have been paying attention to what we do at the AACI/IWARC. We already know how to reduce inflammation and elicit immune responses. And we don’t use drugs and there are no side-effects – as we do it naturally.

Anyway, please go to the link below and listen in on some of the havoc these drugs are producing in those who just seek relief from chronic illness and pain. It is truly a sad state of affairs. Thanks to my friend, Dave Zuro, for the heads-up on this article. https://muckrack.com/john-faubert/articles

Travel Discounts for Friends of AACI!

It’s a Win/Win!!

We have an exclusive deal with Priceline where they offer friends of the AACI discounts (sometimes 20% to 50% or more!) when you book using our link and then Priceline gives the AACI a little donation as well! It's truly a win/win situation! You and your family may get a great discount on your hotel stay PLUS you are helping the AACI - how cool is that?! Even if you choose a hotel that is not discounted (or airline tickets or rental cars), the AACI will still get the donation so please compare this link to your favorite booking site and if it is the same price or less, we would really appreciate you booking through this link!

Email AACI Board Vice President Shelly Oslie at shelly@americanaci.org with subject “Link Please” and she will send you the link and password. Thank you!
And speaking of traveling…

…enjoy these photos from the Toronto leg of Bob’s recent 3 City Canadian Tour which reached hundreds of people in person and was viewed by thousands!

Canadian AACI Ambassador Christina Li presents Bob with thank-you gift!

A whopping 230 people turned out just for this Toronto meeting!

A financial service for using life insurance today™

For millions of people who are living with a serious illness such as cancer, heart disease, Alzheimer’s or AIDS, the high cost of medical care can quickly deplete essential resources. The same is true for many people over the age of 75 who have complicating health factors. Just putting money aside for basic expenses such as groceries and mortgage payments can be a challenge. LIBI gives people a place to turn for additional resources. Through a financial service called a viatical settlement, we enable people to sell their current life insurance policies for a percentage of the total face value. The money people receive may be used for any purpose and, in most cases, is free of federal income tax obligations.

**LIBI can help open the door to new possibilities—such as fewer financial worries, new options for medical care and additional resources to share with family and friends.**

All of us have our own sense of what’s important, whether it’s reaching a long-held goal, spending time with family and friends or enjoying the simple pleasures of each day.

**What sets Life Insurance Buyers, Inc. apart**

People place their trust and confidence in LIBI for many reasons—the financial strength and stability of our company, the experience and commitment of our people, the range and quality of our services, and the leadership and integrity of our organization. These are the qualities that set LIBI apart as the industry’s top broker. LIBI has helped convert millions in policies into accessible funds for hundreds of individuals in need. In every relationship, we take the time to learn what’s most important to our clients and to provide them with the resources they need, in a timely and confidential manner.

**LIBI**

LIFE INSURANCE BUYERS, INC.

Since 1995

*Working with cancer patients and their families for over 15 years.*
People who put clients’ needs first

We truly understand that people place their trust in us every day—to treat them fairly, to deliver what we promise and to be there when they need us. Our mission is to live up to those expectations every time, without exception. That commitment is demonstrated through the professionalism and compassion of our owners. For individuals who are considering a viatical settlement, their personal representative provides a voice of understanding and serves as a trusted resource for help and information.

Leadership that makes a difference

At LIBI, we operate with the highest ethical standards, carefully protecting the interests of our clients. To us, that means maintaining strict client confidentiality, offering fair payment for policies and encouraging effective regulation of our industry. We work closely with the National Association of Insurance Commissioners as well as federal and state governments to promote meaningful regulation of viatical settlements. LIBI works with numerous not-for-profit organizations across the country to help educate and inform the community about this important financial resource.

What’s important?

Choosing a company you trust. At LIBI, our strength, people, service and leadership make a difference to our clients and set us apart as the nation’s leading broker of viatical settlements. We encourage you to find out more about how we can help you or someone you know.

WHAT WOULD THE AUTHOR, BOB WRIGHT, DO IF HE HAD CANCER?

The “Wright Stuff”, of course!

IN THIS BOOK:

- Read meticulously documented Truth about the AACI Cancer Paradigm and what it means for you and your family.
- Be amazed by doctors and medical professionals who know this Truth – some want you to know it, and some don't. Learn why.
- Learn what you absolutely must do and stop doing if you have cancer right now, and what you must do for cancer prevention.
- Understand detoxification and the cancer diet in plain English.
- Read dozens of testimonials from those who have suffered with many types of cancer and have struggled with conventional medicine. Discover what they did that put their disease into remission.
- Learn the five-step protocol that is essentially all that cancer patients really need.
